1.           **G**           **D**           **G**           **G**           **D**           **G**  
May the Sun be warm upon your back, and the breeze cool on your brow.

May you never have more troubles than the ones that you know now.  
          **C**                   **G**                   **C**    **G**           **D**  
May your soul be light and merry, and your heart be blithe and gay.  
          **G**    **C**    **G**                   **D**    **C**           **Em**  
And I wish you every blessing as you go along your way.

          **C**    **G**                   **Em**    **G**    **C**           **D**  
I wish you smiles and laughter, and a shelter from the rain.  
          **C**                   **G**                   **C**    **G**           **D**  
May a rainbow follow every storm whenever skies are grey  
          **G**    **C**    **G**                   **D**    **C**           **Em**  
And I wish you every blessing as you go along your way.

May the road you tread be easy; May your burdens all be light.  
          **C**    **G**                   **Em**    **G**    **C**           **D**  
May you find a welcome refuge when the day turns into night.  
          **C**                   **G**                   **C**    **G**           **D**  
I wish you love to fill your heart, and peace to fill your days.  
          **G**    **C**    **G**                   **D**    **C**           **G**  
And I wish you every blessing as you go along your way.
